

Get more out of the soil with the VARIX rotary cultivator

VARIX

Full-field design with clod breaking roller

Hooks mounted irregularly

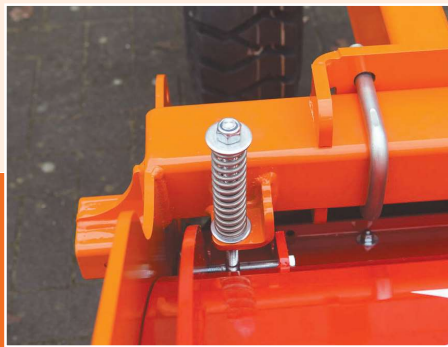

Stainless steel or Multilene-covered press units

Highlights VARIX

- Dynamic, strong and robust design
- Self-cleaning hood above the hooks, spring-mounted
- No dead angles in the hood: remains clean
- Hydraulic cleaning kit (option)
- Durable chain drive with hardened chain wheels
- 50 mm more effective working width than the RF type
- Gearbox with power from 220 to 530 hp
- All optional elements are modular in construction
- Hooks are mounted irregularly to prevent auger effect

Option: hydraulic cleaning kit

Self-cleaning hood

Diabolroller
